

Robot Preschool Pack

{Part 1}

Note: There are TWO parts to this printable, so be sure that you download BOTH parts of the printable to have all of the pages!!! Find all downloads on this page:

<http://homeschoolcreations.com/robotpreschoolpack.html>

This pack contains early learning printables to use with your toddler or preschooler when studying about robots. I would highly recommend printing the activities from this set onto cardstock so that they are sturdier for younger hands.

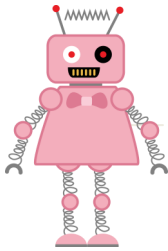

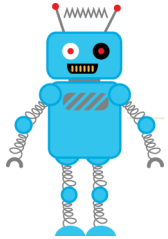

Printables for this preschool pack include:

- Name tag strip for front of lapbook or folder if you store your preschool pack
- Story summary sheet for one of your favorite books
- Robot Fractions ~ whole, half, thirds and fourths
- Size sorting ~ small, medium and large
- Number word identification
- 2 part word and picture matching cards for shapes
- Robot shapes ~ what shape is in the center of the robot?
- Beginning sound word strips and cards for colors
- Shape word matching cards
- 1-10 Robot number puzzle
- Robot graphing & dice
- [Do-a-Dot](#) pages
- Color word tracing strips
- Letter R tracing sheets

Created by Jolanthe @ <http://homeschoolcreations.com>

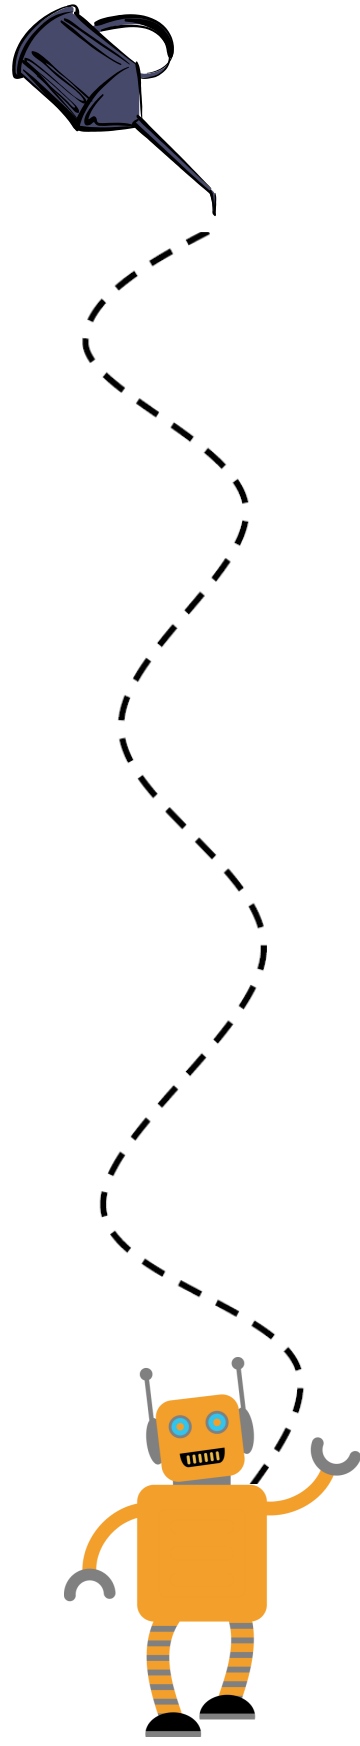

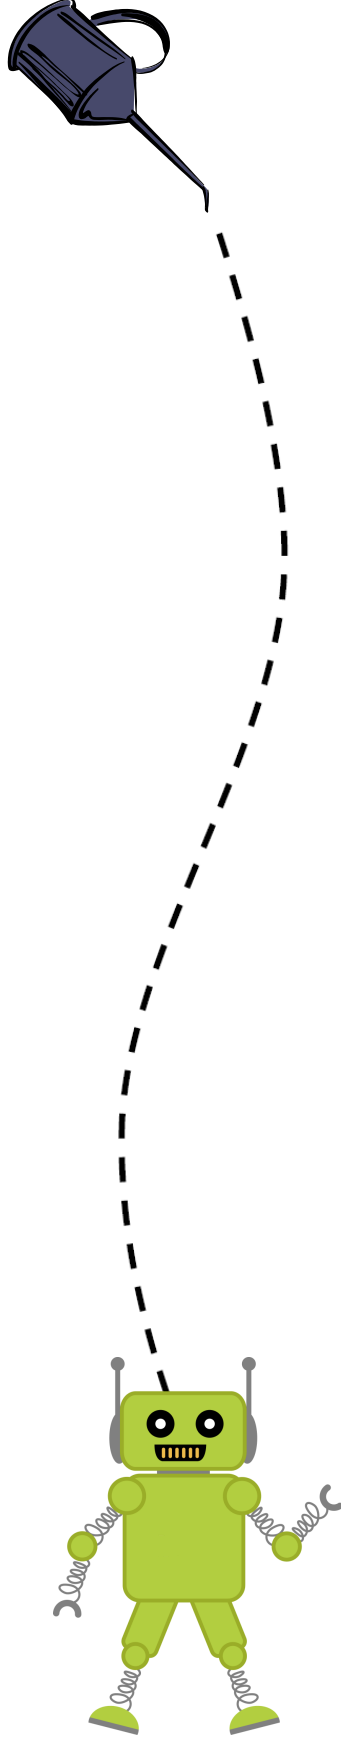

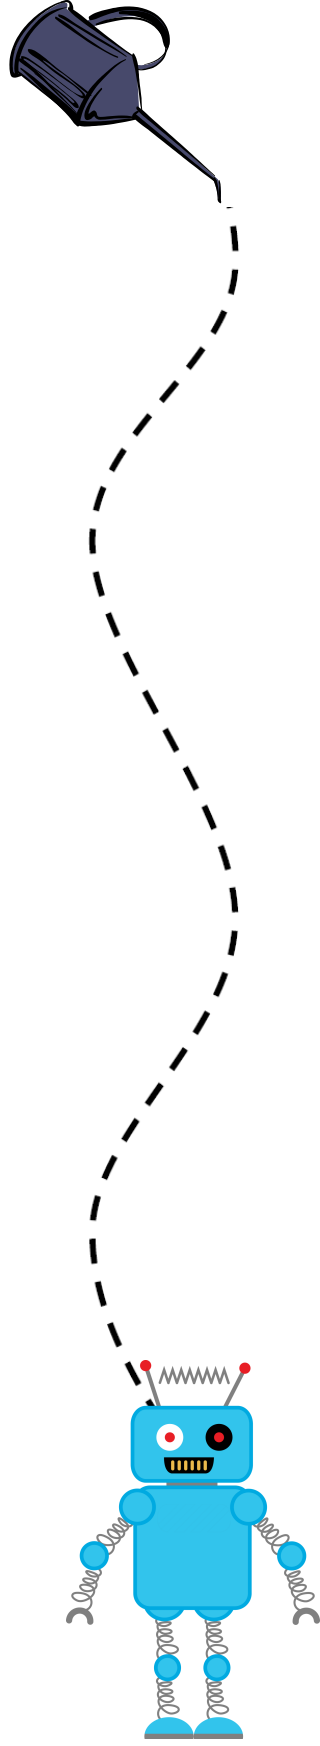

Use the top section for your child to practice writing his/her name and add to the front of a lapbook or file folder if storing your child's work. Depending on the book that you use for your adventure, have your child summarize the book and record what they tell you. Add the mini 'book report' to the front of your folder.

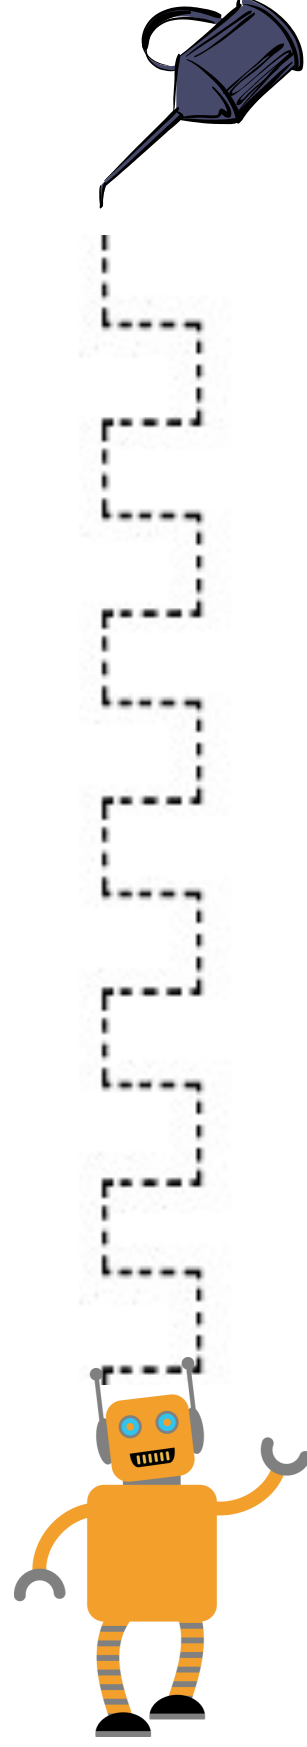

what happened in the story?

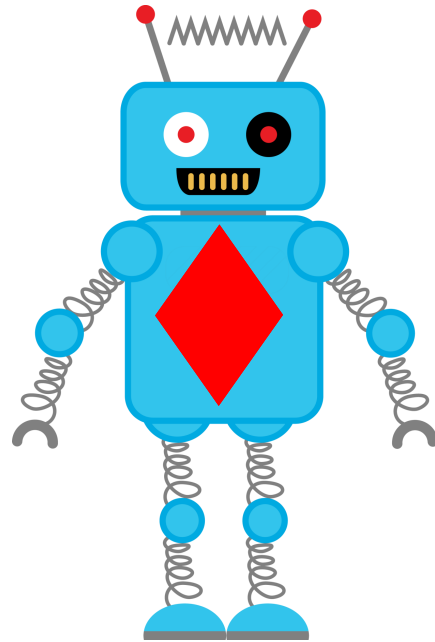

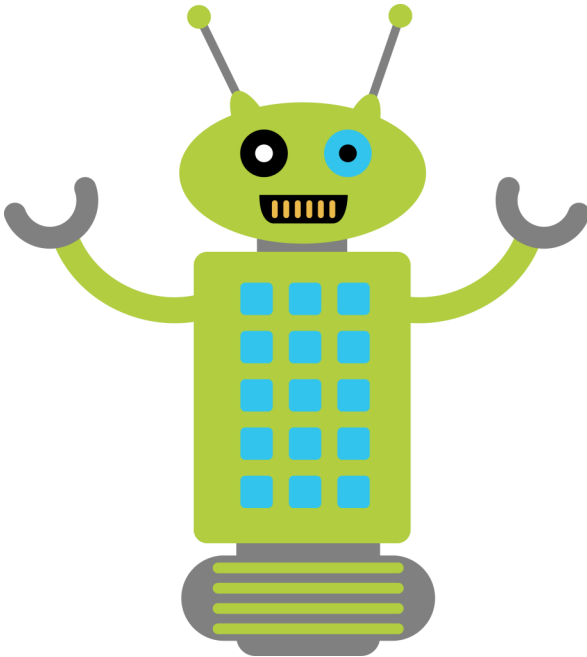

My favorite part of the book was...

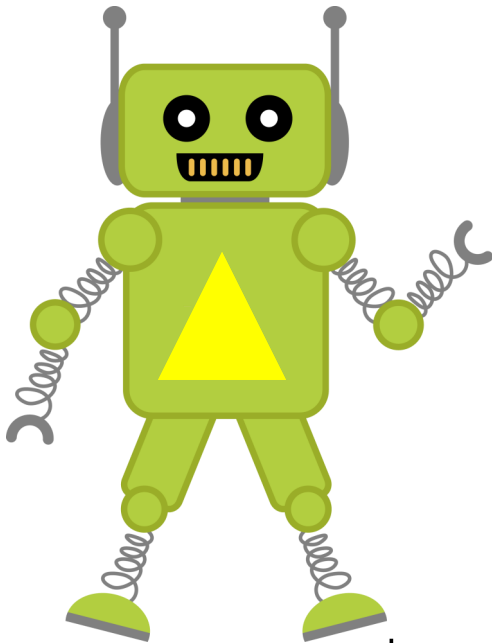

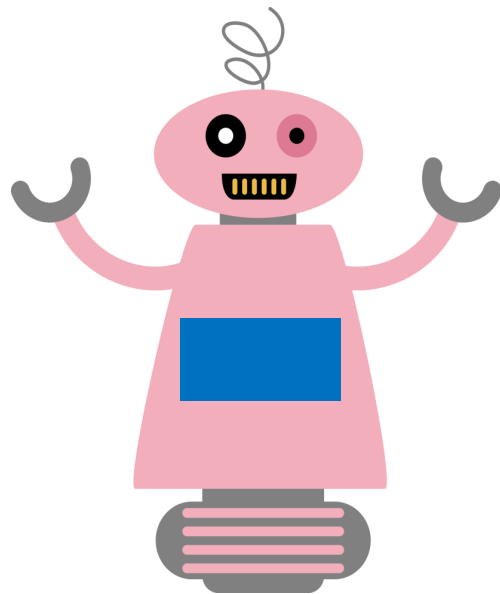

Robot Shapes

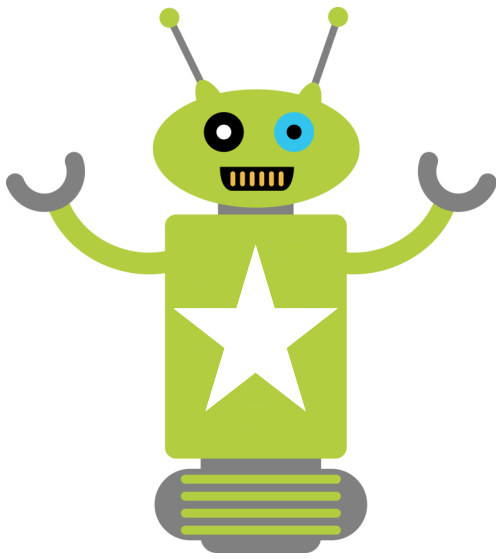

diamond

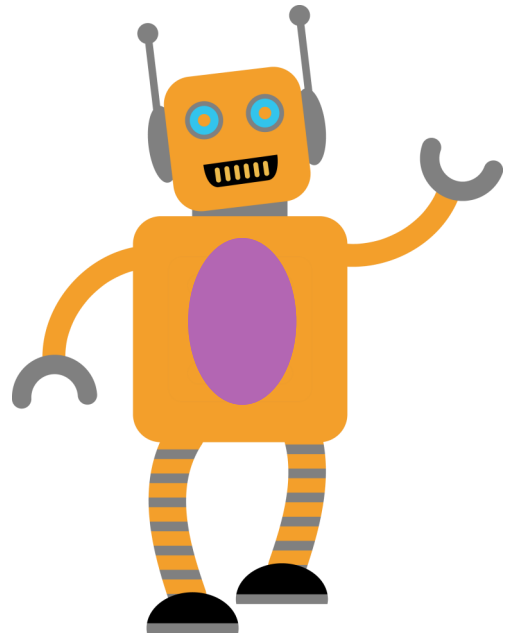

triangle

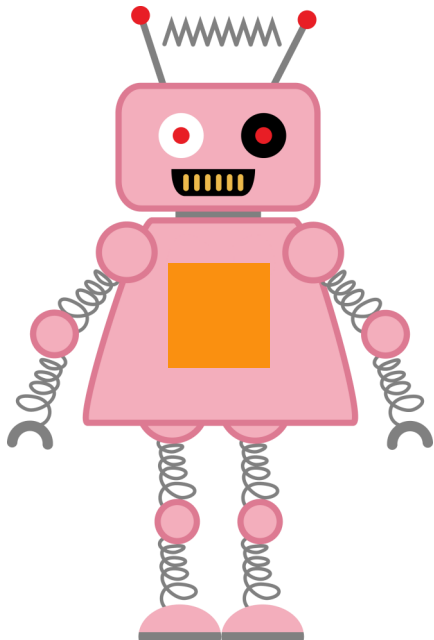

rectangle

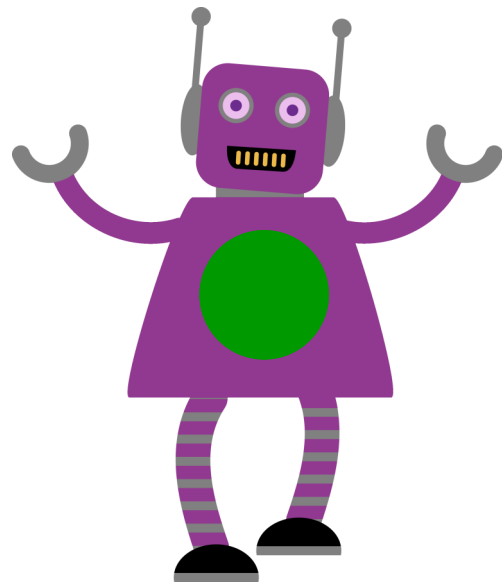

star

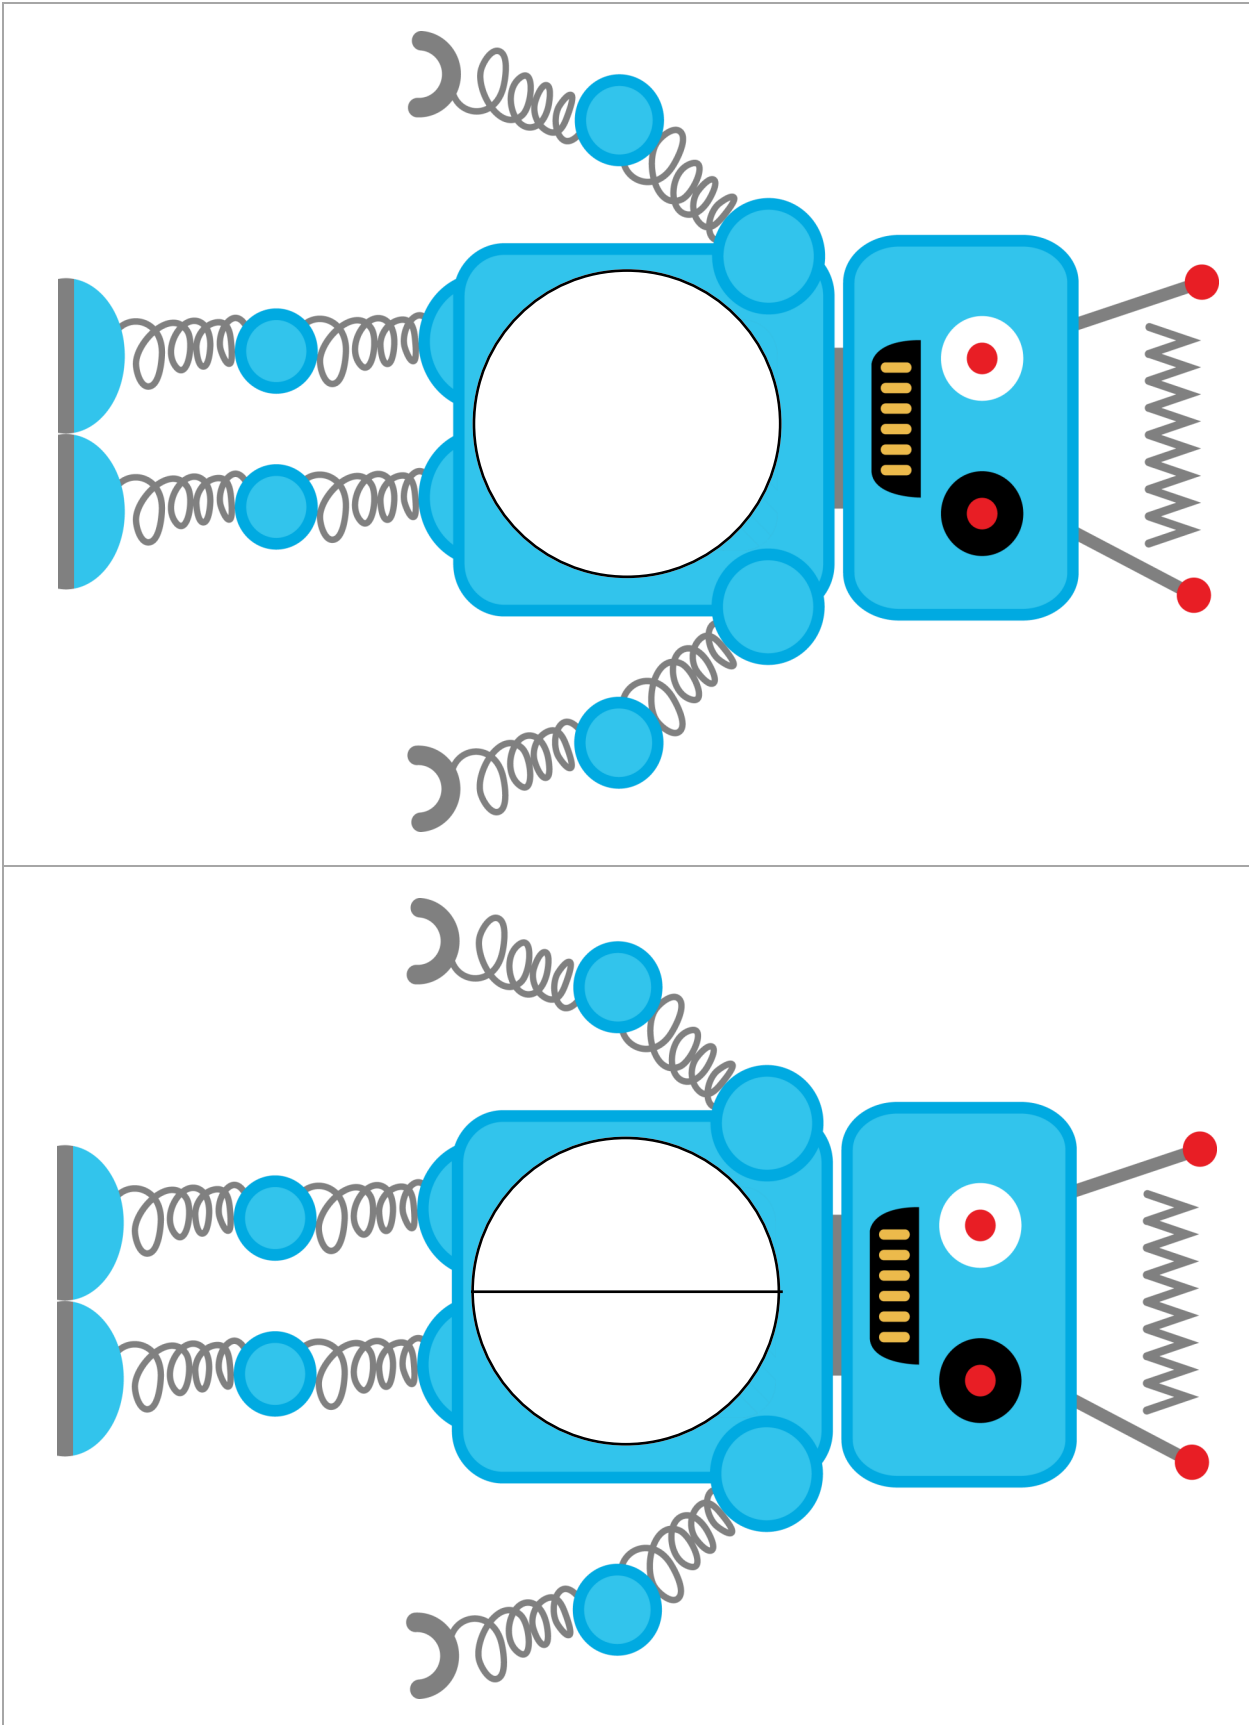

oval

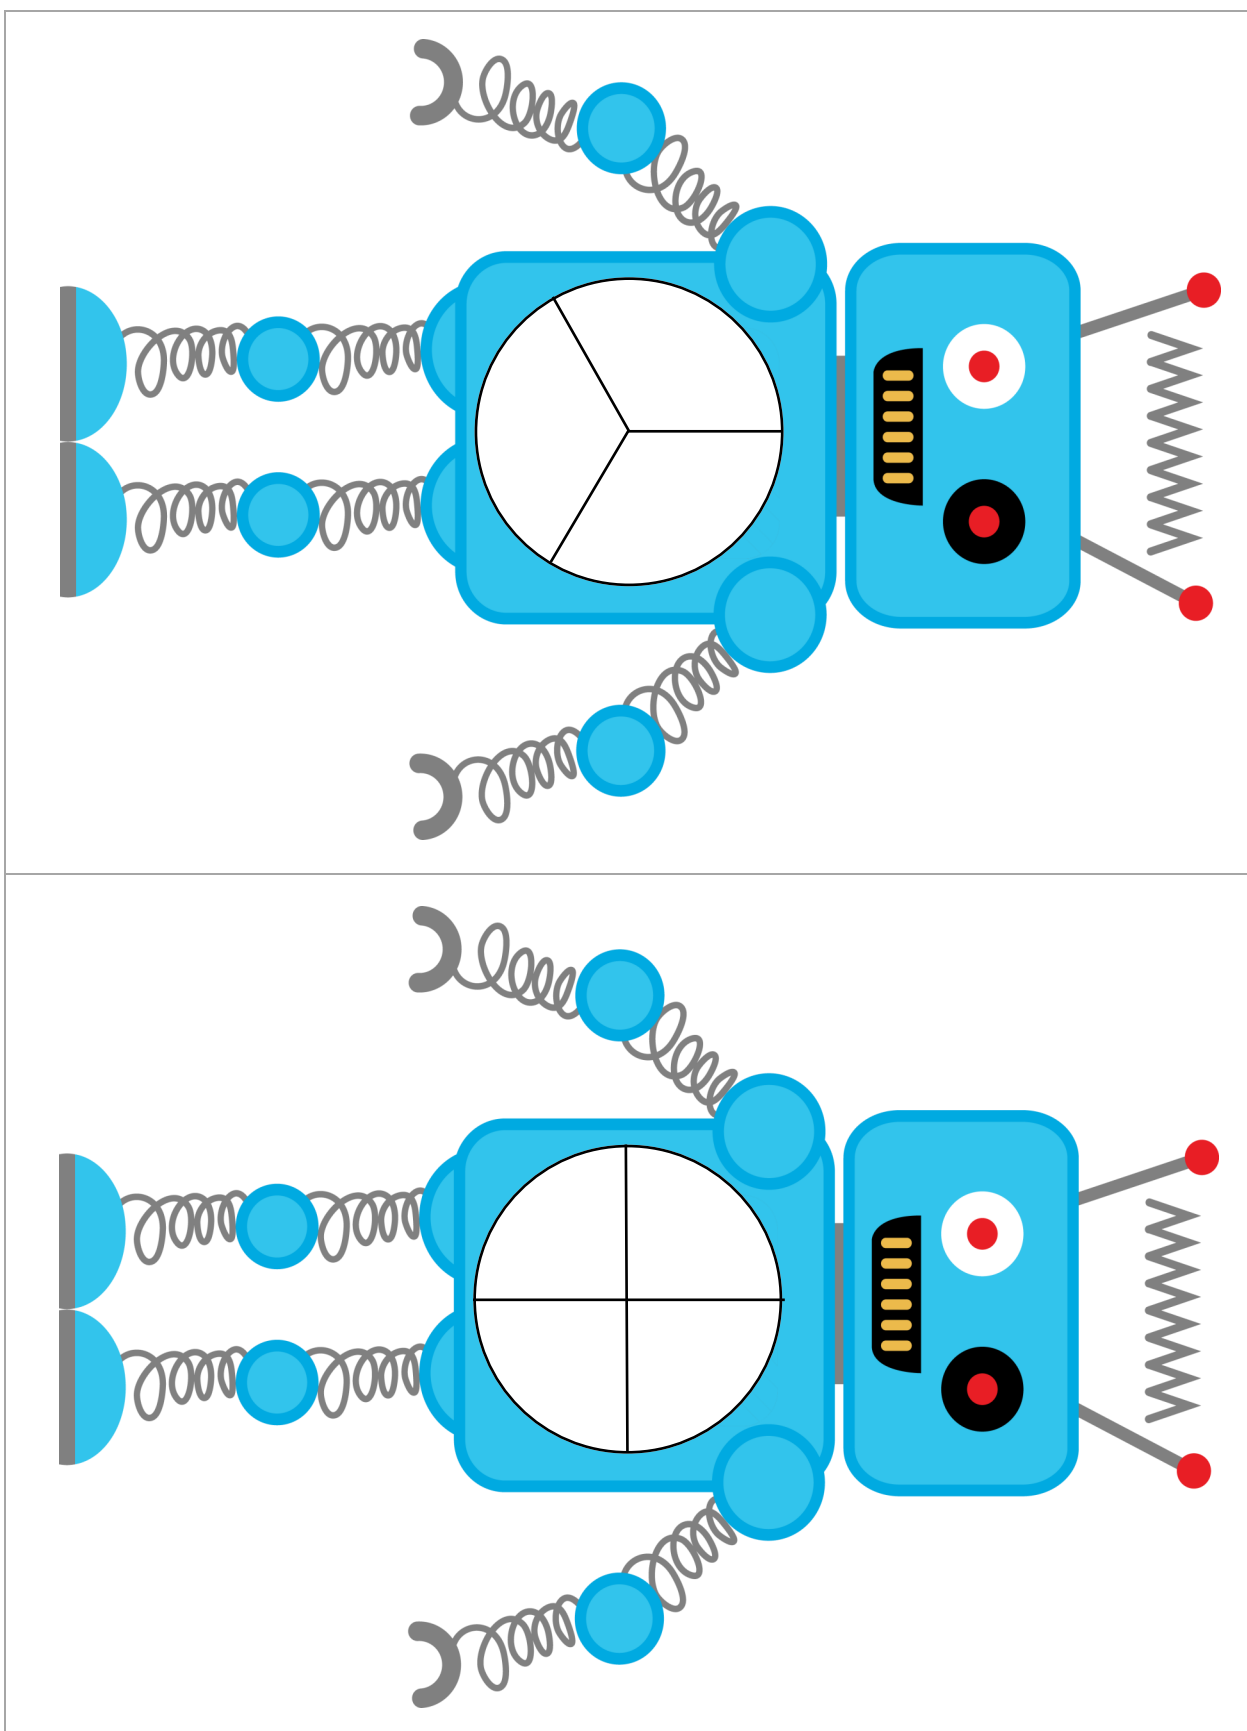

square

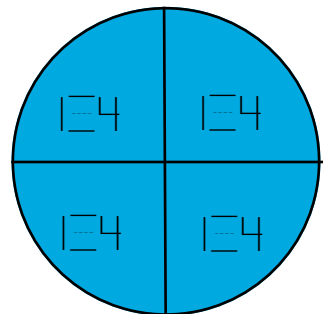

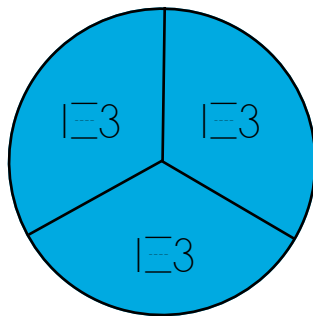

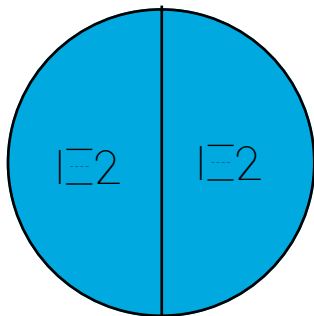

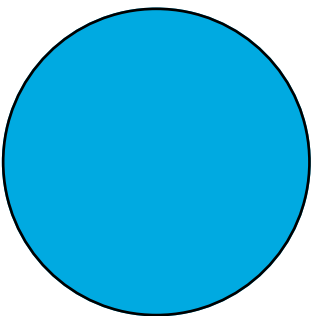

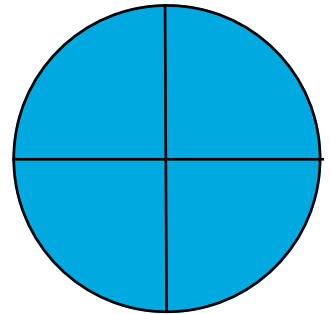

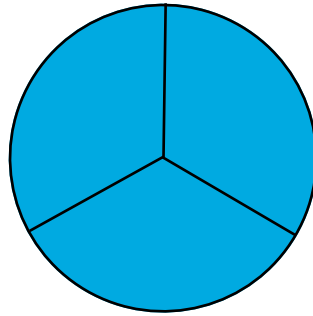

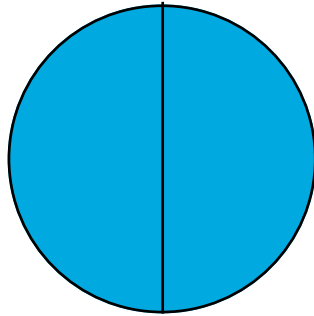

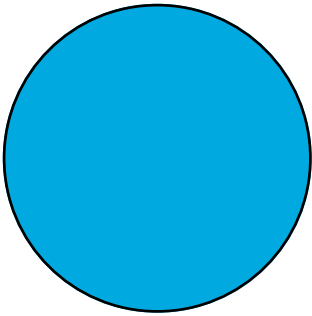

circle

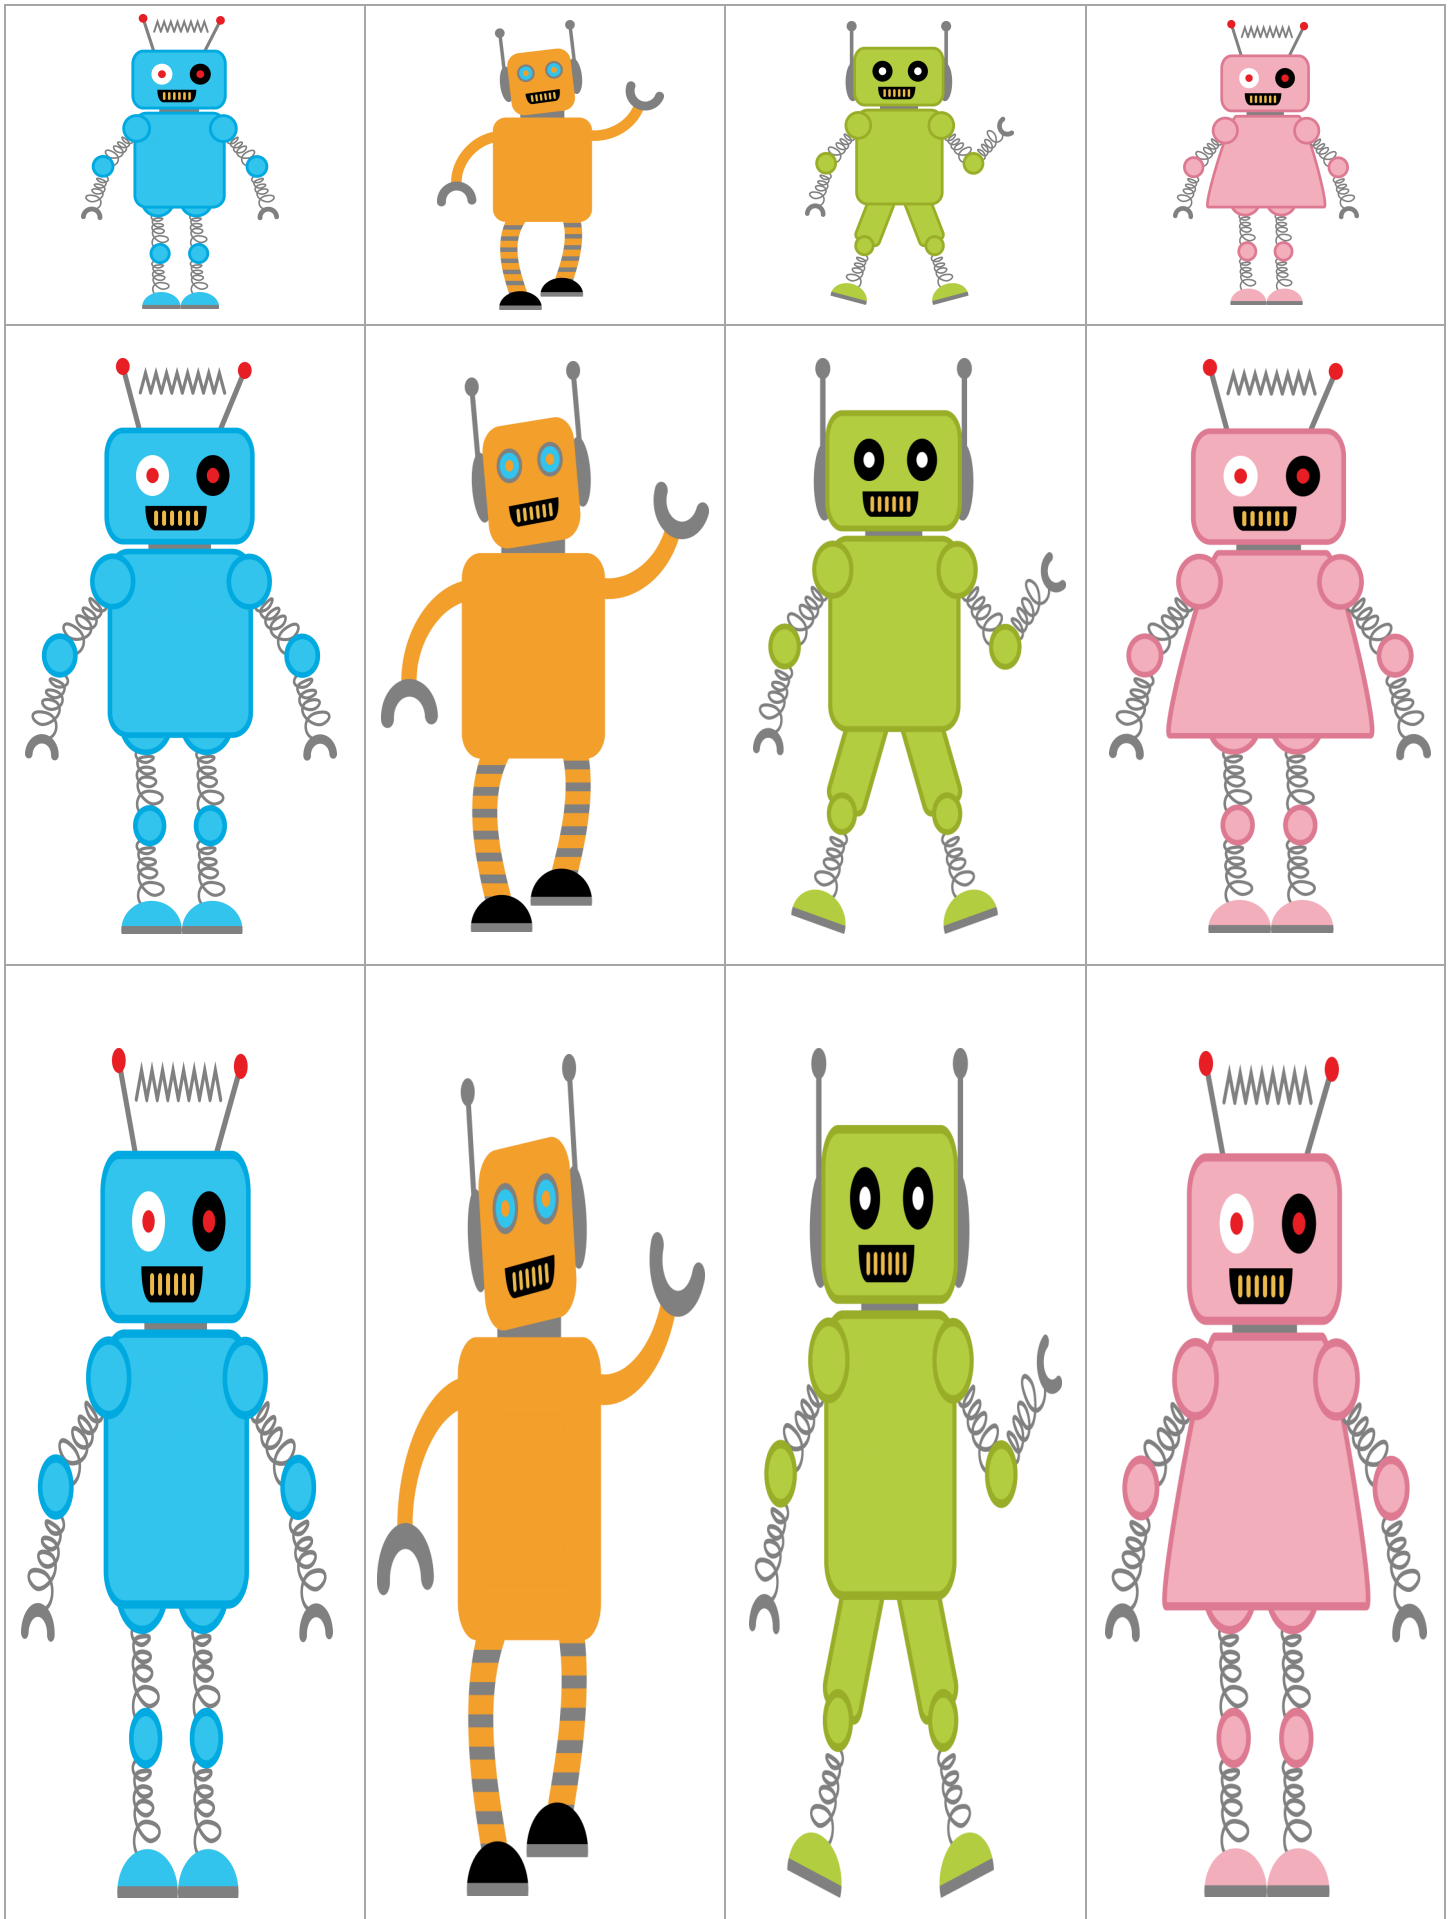

Robot Fractions

Print {and I would recommend laminate} the circle below to teach your little one about fractions. Match the fraction circles to the robots on the previous two pages. Use either the set that has the fractions on them or the set without.

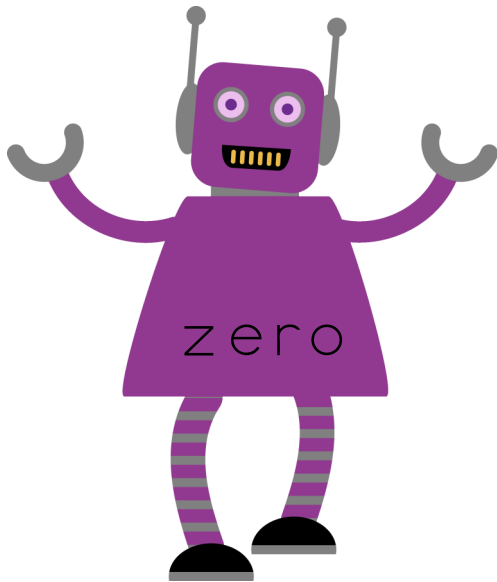

Size Sorting

Small	Medium	Large

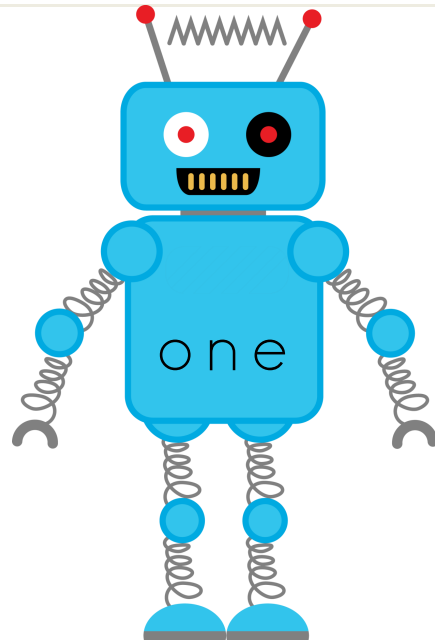

Print, laminate and cut out. Have your child either clip a clothespin to the correct number or use a dry erase marker to circle the correct number.
